Recognized as an *Inc. Magazine* nationwide *Best Workplace*

CDCA Defense Summit Innovation Spotlight Award winner for our products

Our products were named one of the top "5 disruptive technologies for the federal Health IT market"

A national *Inc. 5000 Fastest Growing Company* for two years in a row (2019 and 2020). Ranking as #47 and #184, respectively.

Lehigh Valley (PA) Veteran Owned Business of the Year (2 awards)

Core Competencies

NIST Risk Management Framework (RMF) Security Control Assessment-Validation (SCA-V) Solutions

Managed Cyber Security Services

NIST RMF and Cyber Security Engineering Support Including ISSO, ISSM, and ISSE Services

System/ Software Test and Evaluation

Vulnerability Assessments and Penetration Testing

Software Engineering, DevOps and Assurance Solutions

Enterprise Network Engineering, Security, and Support

Healthcare Cyber Security Solutions

Sample Past Performance

RMF/Cyber Security Support

- $9.9M Prime, Single Award Task Order Contract (SATOC)
- NIST RMF Security Control Assessment-Validation and Cyber Security Engineering
- Our CPARS highly recommends us to perform this work for other customers, noting the ability to staff up quickly, perform efficiently, and maintain stellar customer service. Won award from U.S. Army Corps of Engineers CIO for outstanding team performance and enhancing DoD cyber security.

ISSE Support Services

- Prime Vendor on single-award $9.3M BPA
- Supporting Authority to Operate (ATO) and continuous monitoring for large portfolios of training, instrumentation and simulation systems at PM TRADE and PEO STRI
- Received multiple accolades – Outstanding past performance ratings and our team's performance is considered the 'Gold Standard' by this customer and many others.

Managed Security Services

- Prime and Sub including multiple Fortune Global 500 Customers, Businesses, and Healthcare Networks
- Security Operations Center (SOC) Operations, SIEM, Penetration Testing, Compliance, Security Engineering
- Strong expansion and growth; Achieved best compliance audit results ever for our customers.

Innovation

Netizen Innovation Working Group (IWG)

AutoSTIG Compliance Tools

Medical Device Visibility and Security Governance

Overwatch Governance Suite

Automated and Innovative SIEM Implementations

- Automated STIG checker and compliance tool for various technologies. Uploaded as Open Source to GitHub and DI2E.
- Provides automated STIG validation for VMWare, Windows Server 2016, Windows 10 and other platforms at a much deeper level than existing tools.
- Eliminates error-prone manual checks.
- FedHealthIT Magazine named it a "Top 5 Disruptive Technology."

- Keep-it-simple approach for decision-makers, especially non-technical ones.
- Medical Device security modules
- Maps POA&Ms and allows for much more effective enterprise Risk and Vulnerability Management (IAVM).
- Tracks RMF and other compliance milestones collaboratively.
- Analyzes data from a variety of tools.
- CDCA Defense Summit Innovation Spotlight Award Winner (2018)

Strategic Capabilities

Alignment with Committee on National Security Systems (CNSS):
Deep subject matter expertise with DoD and CNSS Information Assurance standards, policies, and procedures.

Interoperability and Cross-Domain Solutions (CDS):
As the DoD seeks better ways to collaborate, subject matter expertise in interoperability and CDS is a highly sought-after skillset that we have much of.

Improving DoD Cyber Security through Standardization and Automation:
We excel in the implementation of standardized cybersecurity and RMF compliance solutions for defense organizations and offer several advanced automation tools.

Software Assurance and DevSecOps:
Strong proponents of building security into the Software Development Lifecycle (SDLC) from the very beginning. Have developed customized tools to support these processes.

Doing Business With
Netizen

Contract Vehicles:

Netizen is a **PRIME** Vendor on the Following Vehicles:
- Navy Seaport NextGen
- GSA Schedule 70 (Contract No. GS35F578GA)
    Special Identification Numbers (SINs):
        > 132-51: IT Professional Services
        > 132-56: Health IT
        > 132-45:
        Highly Adaptive Cybersecurity Services (HACS)
- OTA Member:
        Information Warfare Research Project (IWRP)

Simplified Acquisition:

Netizen is a VA CVE Verified SDVOSB Eligible for:
- Sole Source Direct Award per FAR 19.1406
- SDVOSB Set-Aside per FAR 19.1405
