CYBER SECURITY & INFORMATION ASSURANCE

Our personnel are certified to the highest levels in their fields and security-cleared to Top Secret with experience providing advanced cyber security and information assurance solutions for defense and civilian agencies. Stellar past performance and expertise in risk & vulnerability assessments, penetration testing, ISSO/ISSM support, FISMA/NIST compliance & more.

PROGRAM & PROJECT MANAGEMENT

Our certified, experienced professionals will expertly manage even your most complex programs and projects. We also offer business and systems analysis, PMO support, and policy development using advanced tools to ensure peak efficiency.

DATA MANAGEMENT & ANALYSIS

Solutions for datasets big or small including secure information exchange (e.g. HIE), disaster recovery, business and military intelligence solutions, security analytics dashboards and more. Experts in the analysis, security and compliance of datasets.

SOFTWARE ASSURANCE

Netizen tests and validates software using security-ingrained processes and tools so that systems are compliant, secure and reliable. We ensure the use of robust security features while leveraging scalable, adaptive and flexible system architectures. We also employ automated tools for maintaining high quality.

NIST RISK MANAGEMENT FRAMEWORK (RMF)

Certified expert Security Control Assessment and Validation services to achieve Authorization to Operate (ATO) for any size system in accordance with NIST RMF. We also help transition from DIACAP to RMF and provide security engineering to stay compliant and secure.
